

THE GREATEST TECHNOLOGICAL BREAK-THROUGH FOR THE MAPLE SYRUP INDUSTRY

ROTARY WASH SUPPORT FOR CONDENSERS

PRESSURE WASHER

DEMONSTRATION

FEATURES & EQUIPMENT

- No smoke or steam stack
- Fully automated, resulting in substantially lower labour costs
- Plate heat exchanger and heating elements preheat sap and improve evaporator performance by 25%
- Concentrate may be boiled from v15 to 22° Brix
- New Power Unit system for 230, 460 and 575 V units
- Environmentally friendly electrically powered technology
- Total recovery of energy contained in maple sap
- No GHG or air contaminant emissions
- Production cost: \$6.00 per 34 imperial gallons (based on \$0.07 per kWh, at 15° Brix)
- 6 capacities: 80, 125, 160, 225, 340 and 440 GPH
