A ELECTRIC RELEASER WITH SUBMERSIBLE PUMP

For sugar bush with 100 to 30 000 taps.

- 1.5 hp pump is installed within the releaser
- Easy to operate. Can release water with a vacuum of 27 Hg and up with no vacuum interruption, and a 2" output.

For 2300 taps and less (1 pump 0.5 hp)

- A 484421** Vertical 10" x 30", 110 volts (DG-224-PS)
– Manifold height 32"
- 388873** Horizontal 14" x 30", 110 volts (DG-223-30PS)
– Manifold height 22.5"
- 485916** Horizontal 18" x 24", 110 volts (DG-225-PS)
– Manifold height 25.5"
- 487286** Horizontal 14" x 36", 230 volts (DG-223-36S)
– Manifold height 22.5"

Capacity of 4000 taps (2 pumps 0.5 hp)

- 487728** Horizontal 18" x 24", 110 volts (DG-225-2PS)
– Manifold height 25.5"

Capacity of 4000 taps (1 pumps 1 hp)

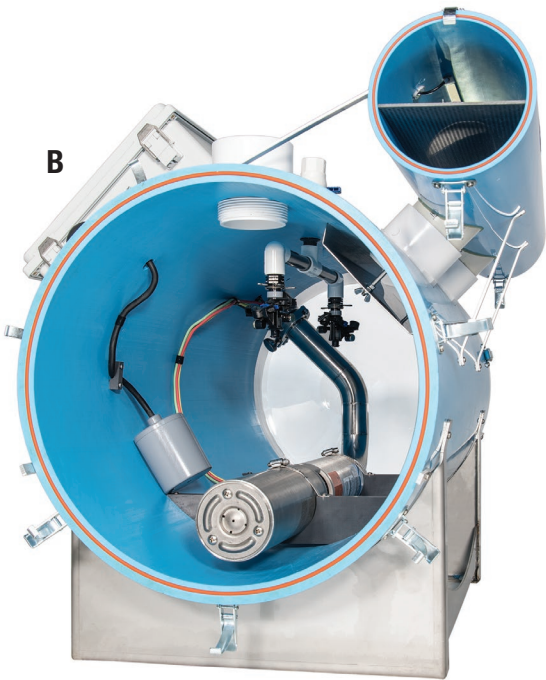

- 484346** Horizontal 14" x 36" (DG-223-PS)
– Manifold height 22.5"

B Capacity of 7000 taps. (1 pump 1.5 hp)

- 407468** Horizontal 18" x 36" (DG-227-PS)
– Manifold height 25.5"

For 7000 to 15 000 taps (2 pumps 1.5 hp)

- 407512** Horizontal 18" x 36" (DG-227-2PS)
– Manifold height 25.5"
