

# TAPPING

## HAMMERS

- A 473876** 10" hammer with handle (2 faces)
- B 473920** 5/16" tubing aluminum plier
- 478604** 3/16" tubing aluminum plier

## SPOUT REMOVERS

- C 473883** 15" spout remover (small)
- 474521** 22.5" spout remover (medium)
- 474033** 30" spout remover (tall)
- D 474583** 40" spout remover (x-tall)
- 476365** 48" spout remover (on request)

## MAINLINE ADJUSTER

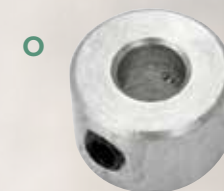

- E 477010** 30" mainline adjusting tool

## OTHER D&G TOOLS AND ACCESSORIES

- F 155284** Garant pruner
- G 474835** 1 1/2" plastic mainline cutter
- 474859** 2" plastic mainline cutter
- H 466243** Knipex plier for high tension #10 wire
- I 466359** CHAMBERLAND Drop line plier

## J SURVEYOR TAPE

<b>149733</b>	Neon orange
<b>149900</b>	Neon Pink
<b>149917</b>	Neon blue
<b>149924</b>	Neon red
<b>149740</b>	Neon orange/black

<b>G 474668</b>	5/16" regular length
<b>H 474644</b>	19/64" regular length
<b>I 472008</b>	1/4" regular length
<b>J 474682</b>	7/16" regular, special right
<b>K 478956</b>	19/64" short length
<b>L 478963</b>	5/16" short length
<b>474484</b>	1/4" short length

<b>M 475047</b>	19/64" regular length
<b>475009</b>	5/16" regular length
<b>476747</b>	1/4" regular length
<b>478987</b>	19/16" short length
<b>478994</b>	5/16" short length
<b>N 478970</b>	1/4" short length

- O 470547** 7/16" tapping bit stopper (71910)
- 470561** 5/16" tapping bit stopper (71911)
- 470523** 19/64" tapping bit stopper (71912)
- P 409035** tapping bit stopper (71918)

# DRILL BIT CRAFTSMANSHIP

## FEATURES

### Precise Split Point Clearance

The clearance at the tip of the drill bit enables precise penetration without distorting the hole, ensuring clear and accurate results.

### Full-Length Deep Flute

The full-length deep flute allows for efficient accumulation of wood chips, reducing friction and enabling entry to the desired depth in a single operation.

### Spiral Chip Relief Ellipse

The clever machining of the spiral chip relief ellipse retains wood chips inside the bit, ensuring complete evacuation upon removal from the tree.

### Long-lasting Performance

Crafted with high-carbon steel, our drill bit stays sharper longer than most available on the market, ensuring exceptional durability.

## USAGE TIPS

### Ensure Sharpness

Ensure the side lips of the drill bit are sharp. Well-sharpened side lips guarantee precise cutting, enhancing harvest quality.

### Minimal Sharpening

To ensure increased durability, avoid sharpening the drill bit more than twice. This ensures consistent performance and extends the tool's lifespan.
