

COMBINED SAP RELEASERS

CONTINUOUS VACUUM

A

Capacity of 3000 taps

400438
(DG 213 / 225)

B

Capacity of 6000 taps

400490
(DG 219 / 227)
Vacuum Inlet 2"

Capacity of 12 000 taps

400162
(DG 220 / 227)

400131
(DG 220-3/227)
Vacuum Inlet 3"

Capacity of 25 000 taps

400148
(DG-222-3/227-60)
Vacuum Inlet 3"

- Mechanical/electrical releasers are built to work at 25 HG with high vacuum
- Evacuate the releaser water in the second part without being under vacuum
- Easy to dump the sap from the releaser in the tank
- Manifold heights : For 3,000 taps (38.5") For 6,000, 12,000 and 25,000 taps (46")
