

THE MOST ROBUST WOOD EVAPORATOR IN THE INDUSTRY

2 VERSIONS:

- WOOD
- WOOD AND WOOD PELLETS

Environmentally friendly

Air injection between 200°F and 400°F all around the periphery to increase combustion

20 % improvement on the boiling rate

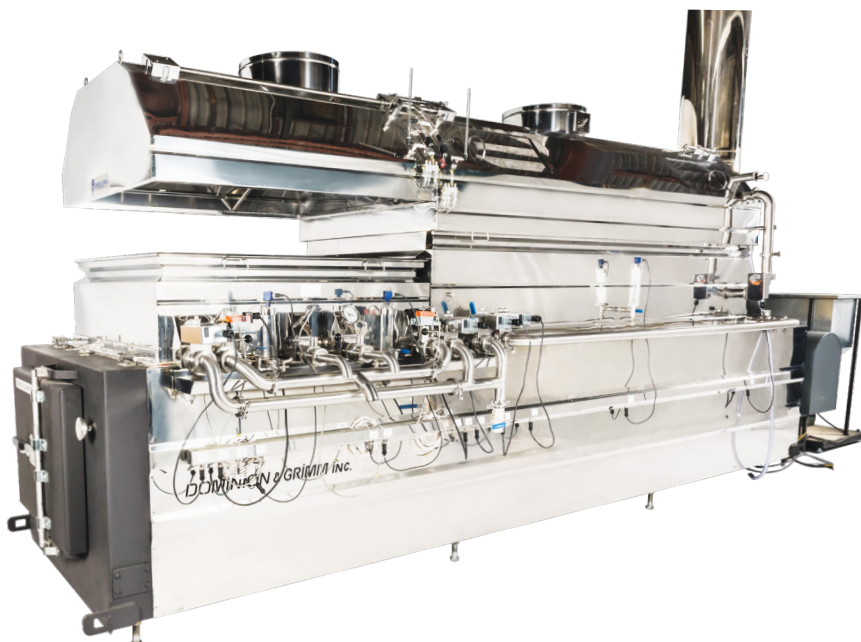

Save up to 20% on wood or wood pellets

Possibility of switching from pellet to wood in a few minutes (dual-energy model only)

Double wall system that recovers heat from the combustion chamber and preheats the air injected into the furnace

TORNADO

- Wood
- Wood pellets

FEATURES AND EQUIPMENT INCLUDED

- High-quality D&G knurled connectors

- Return set and plumbing completely made of stainless steel

- Smoke stack and cover
- 1" rigid insulation panels in the sides of the evaporator
- 3 layers of factory-installed no. 8 ceramic wool insulation throughout the evaporator
- Combustion chamber factory-poured high-temperature reinforced concrete
- Preheated air temperature gauge
- Blower drive to control air flow

Aesthetic pan and ultra-strong D&G fold

TORNADO EVAPORATOR

OPTIONS:

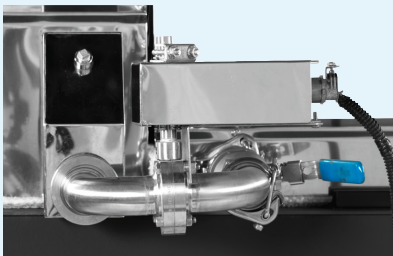

Wood pellet hopper and gear box

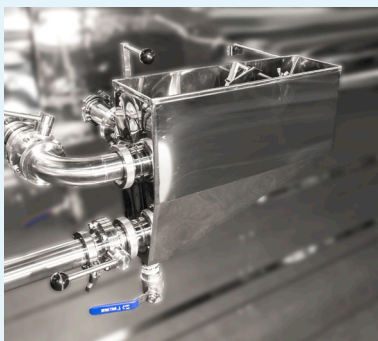

Butterfly valves

Flow inverter with central outlet

Electric sap entry and transfer valves

Transfer box with sediment trap

Other options:

- Full automation
- Insulated smoke stack
- Ferule connectors
- Wire tracks
- 110 volt electric outlet
- Smoke stack thermometer
- Syrup recovery tray
- Barometric damper (draft control) with adapter
- Automated flue pan power washer
- Stainless steel hood
- Single or dual function preheater
- LED hood lights
- Defoamer dispenser
- Modulating syrup controller
- Stainless steel 2 level catwalk and 1 step
