

# MAPLE SUGARING EQUIPMENT & ACCESSORIES FOR 1970

MODEL "700"  
Size 5' x 16'

Models	Flues	Pans
"600"	6"	14 1/2"
"700"	7"	14 1/2"

## "600"

**Models "700"** are absolutely identical except for the depth of the flues in the fire. All the pans have the same height (14 1/2 inches). The removable sap control float box may be installed on either the right or left hand side, in back of the boiling pan. The draw-off faucet is in the rear and may also be installed on either side. These two models can be manufactured with three finishing pans of same size with copper or tin bottom.

**On the "REVERSIBLE"** model only the front section differs from the models "600" and "700". It has only one flat bottom finishing pan with lengthwise partitions which enables you to draw-off syrup on either side.

Specify bottom and pipe desired.

## OVAL GATHERING TANK made of heavy No. 20 & 22 galv. iron. Soldered inside and outside.

This oblong shaped tank with curved ends has a center divider\* to prevent sap from splashing. The whole bottom of this extra strong tank is made of galvanized iron with, or without, wooden reinforcement. A heavy steel band protects the bottom. Supplied with either a 2" galv. iron or a 2½" cotton hose outflow pipe. Price is the same.

Capacity	Length	Width	Height	Iron bottom	Iron and wood bottom
100 gal.	59	34	20	\$110.00	\$120.00

200 gal.	71	34	28	—	175.00
300 gal.	95	34	28	—	230.00

\*The 300 gallon tank has two dividers.

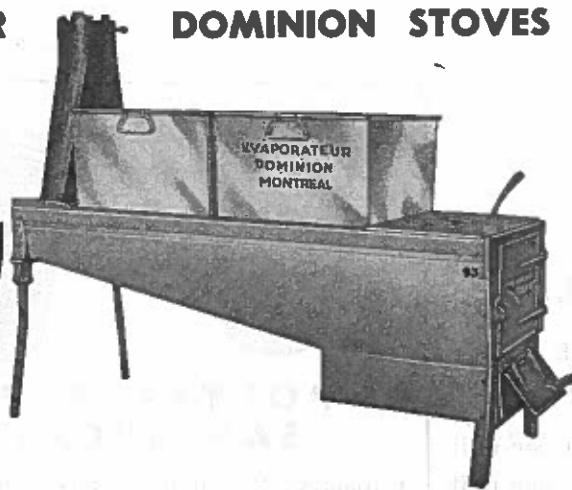

## THE SO POPULAR

## DOMINION STOVES

This model 92 has only one pan and one set of rimmers which can be placed behind, or in front of the pan. The rimmers' plate is 12" wide.

Size of pan	Stove and pan	Stove alone
18 x 23	\$110.00	\$90.00
18 x 29	117.00	95.00
24 x 23	126.00	104.00
24 x 35	140.00	112.00

This stove, model 93, has two pans of same dimensions, plus a set of rimmers that may be placed anywhere you like — in front of the two pans, behind, or even between them. This model may be built to suit your specific requirements; that is, with 3 or 4 pans of different lengths. Prices on request.

	With rimmers	Without rimmers
2 pans 18 x 18	\$130.00	\$123.00
2 pans 24 x 23	163.00	156.00
3 pans 18 x 18	178.00	170.00
3 pans 24 x 23	190.00	182.00

¾" faucet with connection \$7.50 extra

### MODEL 96

### Domestic sugaring off Arch and Pan

The front and back of this stove are made of cast iron. The double side walls are made of galvanized iron, and the fire box must be plastered. The pan is No. 24 gauge tin iron.

Complete with 18" x 23" pan	\$61.00
18" x 29" pan	64.00
18" x 35" pan	69.00

1" faucet with connection \$7.95 extra

### No. 99 SPECIAL BRUSH

This No. 99 Fiber brush, made of extra stiff fiber, shapes the underneath crimps. The wooden handle has a furl which enables you to add a long handle, for cleaning all sizes of evaporators.

For 5 inch crimps	\$2.50
For 7 inch crimps	2.75

Parcel post: add 45¢

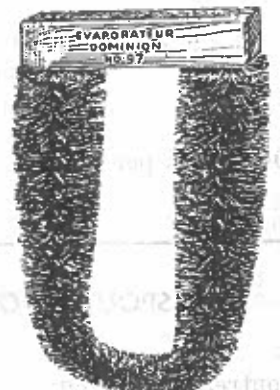

### No. 27 BRUSH

This brush is extremely useful to wash evaporators.

Fiber	\$1.75
Orlon	2.25

## "DOMINION" SAP BUCKET WASHER

No. 98

You may have used bucket washers but perhaps never with adjustable brushes that follow the sides of the bucket.

The "Dominion" washer, with its round bottom shaped brush, and the two spring-hinge operated brushes that press on the sides of the bucket, will wash your buckets in a record time — as fast as you can handle them.

The "Dominion" washer, uses very little wood and yet will keep you supplied with plenty of hot water.

The galvanized iron tub is mounted on a heavy angle-bar with electrically welded joints.

Available with a 1/4 h.p. electric motor or a 2 h.p. gas motor.

3" smoke stack supplied with washer.

The whole unit weighs only 100 lbs.

Complete with electric motor (1/4 h.p.) .....	\$145.00
Without motor .....	127.00
Washer without stove nor motor .....	110.00
Price of shaft assembly with brushes and brackets (without pulley) .....	50.00
Brushes (Set of 3) .....	(Parcel post: add 45¢) 5.50
Pulley alone .....	6.50

No. 30

## CONTAINER FOR SYRUP STRAINING

Made of heavy tin iron with raised bottom and supported by a heavy iron ring. Supplied with a 3/4 inch faucet, a 2-handle cover, and 3 felts.

30 gal. cap. . . \$85.00

## 2-SECTION (3 rings) SYRUP STRAINER

For squares of 18" x 18"

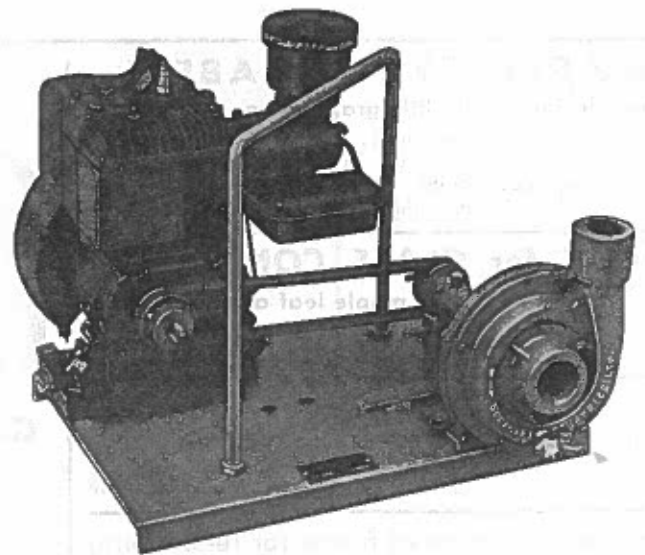

Adaptable on 10 gallon syrup containers measuring 14" in diameter x 23" in height .... \$13.75 without felt

For squares of 24" x 24"

Adaptable on 20 gallon syrup containers measuring 20" in diameter x 23" in height .... \$17.50 without felt

These strainers should be used with a woolen or orlon square between the first and second ring and with a cotton between the second and third ring

Cannot be used on milk cans

## SAP WATER PUMP

These pumps are used for emptying the gathering tanks. They are specially suited for those who have no elevation near the sugar house.

This fuel-saving pump is powered by an easy starting gasoline engine. It can also be powered by an electric motor.

The sap inlet is a 1 1/4" pipe while the outlet is 1".

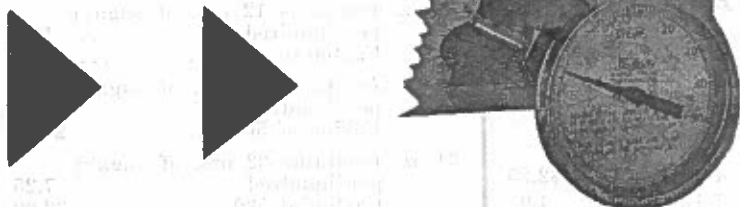

With gas motor and V-belt .....	\$132.50
With 1/4 H.P. electric motor and V-belt .....	95.00
Pump alone, without base nor motor .....	38.00
Foot valve alone .....	5.50

## DIAL THERMOMETER (12 inches)

This Dial Thermometer is screwed in a brass nipple soldered to the pan. Comes with a plug, so this thermometer may be used on a spare pan.

Thermometer with connection .....	\$22.00
Connection for extra pan .....	1.00

Parcel post: add 45¢
