MAPLE SUGARING
EQUIPMENT & ACCESSORIES *for '66*

model "700"
size 4' x 13'

Model	Flues	Pans
"600"	6"	13"
"700"	7"	14"
"800"	8"	16"

Models "600" "700" "800" are absolutely identical except for the depth of the flues* *in the fire* and for the height of the pans* which vary with each model.

The removable sap control float box may be installed on either the right or left hand side, in front of the boiling pan.

On the "REVERSIBLE" model only the front section differs from the models "6-7-800". It has only one flat bottom finishing pan with lengthwise partitions which enables you to draw-off syrup on either side.

When ordering, always specify the location and size of outlet required.

OVAL GATHERING TANK made of heavy No. 20 & 22 galv. iron. Soldered inside and outside.

This oblong shape tank with curved ends has a center divider* to prevent sap from splashing. The whole bottom of this extra strong tank is made of galvanized iron with, or without, wooden reinforcement. A heavy steel band protects the bottom. Supplied with either a 2" galv. iron or a 2½" cotton hose outflow pipe. Price is the same.

MONTREAL

This spout, made of thick aluminum sheet, is shaped like the Joliette. It is a little slimmer and the tip is completely closed, so the sap flows-in from underneath — therefore, keeps the tap always fresh.

The MONTREAL spout is the most perfect spout made of sheet metal. Sold in corrugated cardboard boxes with Red printing.

Per 100 ..... $5.50
Per 1,000 ..... 50.00

By mail: 60c extra per 100

SPOUT HOOKS

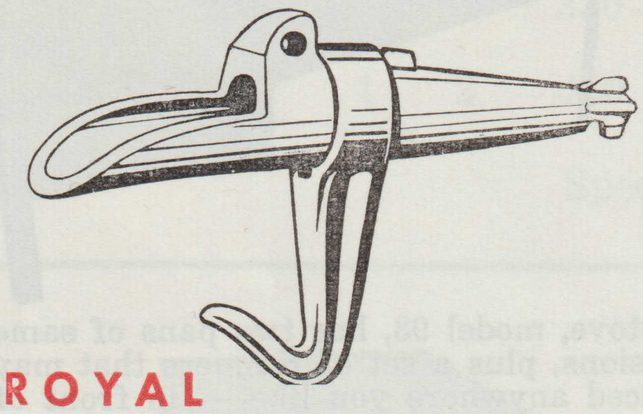

For Joliette ... Per hundred $1.25
For Montreal .. Per hundred 1.25
For Royal ..... Per hundred 4.50

By mail: 40c extra per 100

SPOUT BRUSH

Cleans like magic.
To be used with a drill $0.30

By mail: 5c extra

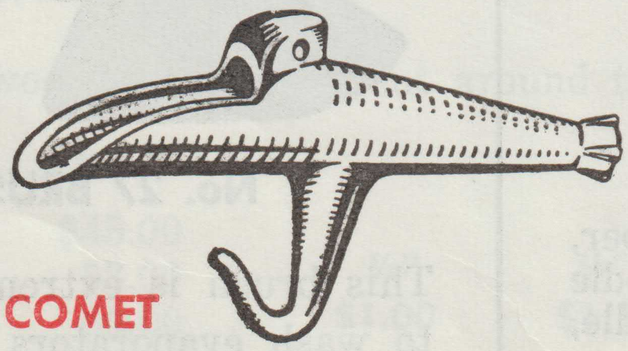

ROYAL

Made of cast aluminum with rolling hook. The end of the spout has 4 supporting edges that hold it firmly into the tap.

The sap flows-in from underneath.

Per 100 ..... $8.75

By mail: 85c extra per 100

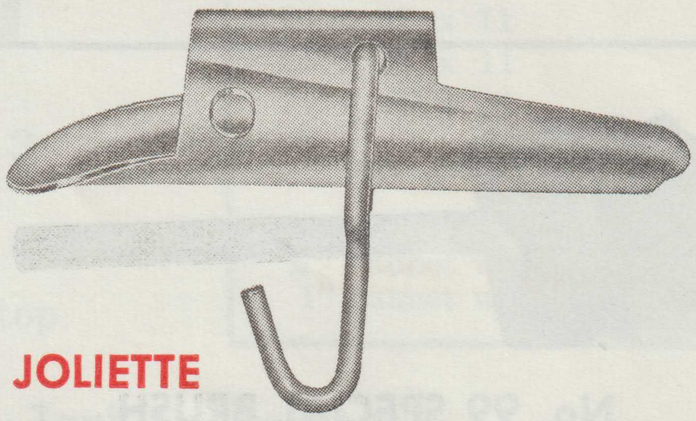

COMET

Made of cast aluminum, its shape is identical to the Royal. Solid type hook.

Per 100 ..... $8.75

By mail: 85c extra per 100

JOLIETTE

Except for the sap inlet it is the same as the Montreal.

The Joliette spout has been imitated but **never duplicated.** Insist on **the authentic Joliette** spout — in the corrugated cardboard box with the Red printing.

Per 100 ..... $5.50
Per 1,000 ..... 50.00

By mail: 60c extra per 100

"DOMINION" SAP BUCKET WASHER

No. 98

You may have used bucket washers but perhaps never with adjustable brushes that follow the sides of the bucket.

The "Dominion" washer, with its round bottom shaped brush, and the two spring-hinge operated brushes that press on the sides of the bucket, will wash your buckets in a record time — as fast as you can handle them.

The "Dominion" washer, uses very little wood and yet will keep you supplied with plenty of hot water.

The galvanized iron tub is mounted on a heavy angle-bar with electrically welded joints.

Available with a ¼ h.p. electric motor or a 2 h.p. gas motor.
3" smoke stack supplied with washer.
The whole unit weighs only 100 lbs.

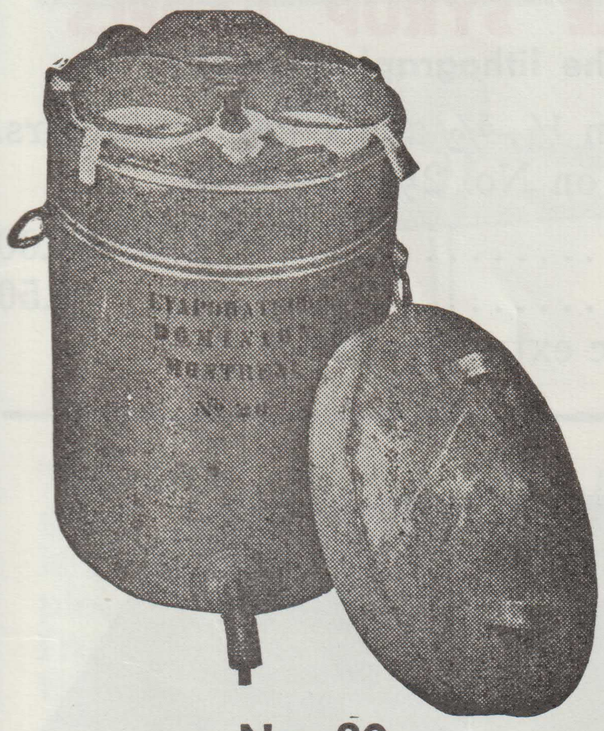

Complete with electric motor (¼ h.p.)	$120.00
Without motor	105.00
Washer without stove nor motor	90.00
Price of shaft assembly with brushes and brackets (without pulley)	40.00
Brushes alone (Set of 3) (By mail, 30c extra)	5.50
Pulley alone	6.50

SYRUP CONTAINER

¾ inch faucet: $4.00 extra

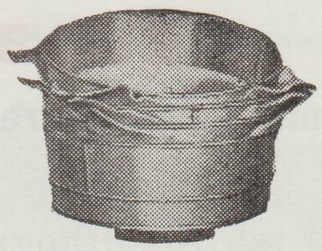

No. 30

CONTAINER FOR SYRUP STRAINING

Made of heavy tin iron with raised bottom and supported by a heavy iron ring. Supplied with a ¾ inch faucet, a 2-handle cover, and 3 felts.

30 gal. cap. .. $60.00

2-SECTION (3 rings) SYRUP STRAINER

For squares of 18" x 18"

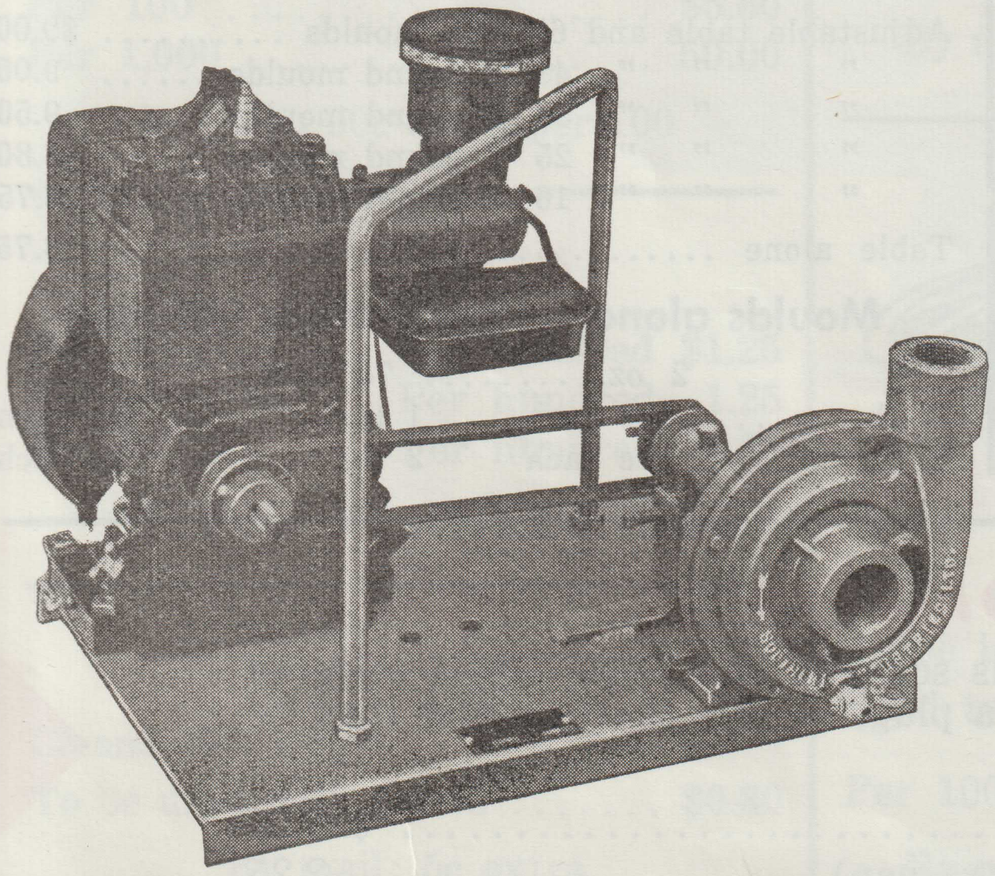

Adaptable on 10 gallon syrup containers measuring 14" in diameter x 23" in height .... $9.50 without felt

For squares of 24" x 24"

Adaptable on 20 gallon syrup containers measuring 20" in diameter x 23" in height ..... $12.00 without felt

Also adaptable on 30 gallon syrup containers measuring 20" in diameter x 29" in height ..... $12.00 without felt

These strainers should be used with a woolen or orlon square between the first and second ring and with a cotton between the second and third ring.

SAP WATER PUMP

These pumps are used for emptying the gathering tanks. They are specially suited for those who have no elevation near the sugar house.

This fuel-saving pump is powered by an easy starting gasoline engine. It can also be powered by an electric motor.

The sap inlet is a 1¼" pipe while the outlet is 1". It will empty an extra large tank in a few minutes.

With gas motor and V-belt	$85.00
With ¼ H.P. electric motor and V-belt	65.00
Pump alone, without base nor motor	35.00
Foot valve alone	5.50
