

# MAPLE SUGARING EQUIPMENT & ACCESSORIES FOR **1978**

MODEL "700"  
Size 5' x 16'

Models	Flues	Pans
"600"	6"	15-1/2"
"700"	7"	15-1/2"

## Models "600" "700"

Are absolutely identical except for the depth of the flues in the fire. All the pans have the same height (15-1/2 inches). The removable sap control float box may be installed on either the right or left hand side, in back of the boiling pan. The draw-off faucet is in the rear and may also be installed on either side. These two models can be manufactured with three finishing pans of same size with copper or tin bottom.

## On the "REVERSIBLE"

Model only the front section differs from the models "600" and "700". It has only one flat bottom finishing pan with lengthwise partitions which enables you to draw-off syrup on either side.

12-1/2" x 12-1/2" (3 gal.)

Per hundred ..... \$57.00

## SPOUT HOOKS

Montreal and Joliette .... Per C \$4.50

Royal ..... Per C \$7.00

Parcel Post: add 70¢ per hundred

## GRIMM "HAND MADE" GALVANIZED SAP BUCKETS

2-1/2 imperial gal. . . . \$270.00 per hundred

## ALUMINUM COVERS

11-1/4 x 11-1/4 \$50.00/100

## SPOUT BRUSH

To be used with a drill

Each ..... 70¢

Parcel Post: add 30¢

## CHOLETTE AUTOMATIC CONTROLLER

### WITH NEW THERMO-REGULATOR

This automatic controller may be installed on any make of evaporators. All you need to do is to let us know the size of the connection of the syrup draw off faucet. We will supply you with the right size bushing to fit your evaporator.

This new thermo-regulator is extremely easy to set. Just turn the knob with arrow on the thick or clear side, until your syrup gets to the desired density. This will be obtained by testing your syrup with the use of a standard thermometer or hydrometer.

The thermo-regulator's stem must be laid on the bottom of the pan, a foot away from the syrup outlet. The stem must be kept clean at all times. If the wires are well connected, from the battery to the regulator, the syrup will constantly be of the same density as originally set.

Controller with Thermo-Regulator and connection (without battery).....\$195.00

Thermo-Regulator alone..... 75.00

Mail - \$1.35

For greater profits use

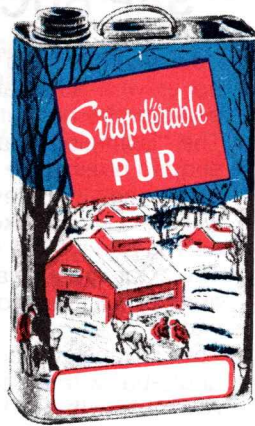

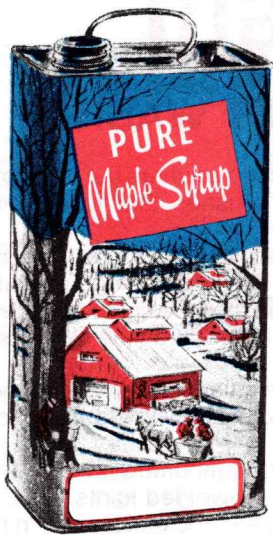

## MAPLE TAP PELLETS

One only pellet in each tap will increase and prolong the running of the sap. Direction on each container.

500 pellets per bottle ..... \$9.25 each

Parcel Post: add 70¢

## DOMINION SAP BUCKET WASHER

You may have used bucket washers but perhaps never with adjustable brushes that follow the sides of the bucket.

The "Dominion" washer, with its round bottom shaped brush, and the two spring-hinge operated brushes that press on the sides of the bucket, will wash your buckets in a record time — as fast as you can handle them.

The "Dominion" washer, uses very little wood and yet will keep you supplied with plenty of hot water.

The galvanized iron tub is mounted on a heavy angle-bar with electrically welded joints.

Available with a 1/4 h.p. electric motor or a 2 h.p. gas motor.

3" smoke stack supplied with washer.

The whole unit weights only 100 lbs.

Complete with electric motor (1/4 h.p.) .....	\$310.00
Without motor .....	\$280.00
Washer without stove nor motor .....	\$245.00
Price of shaft assembly with brushes and brackets (without pulley) .....	\$145.00
Brushes (Set of 3) .....	(Parcel post: add 45¢) \$ 7.50
Pulley alone .....	\$ 18.00

## 2-SECTION 3 rings SYRUP STRAINER

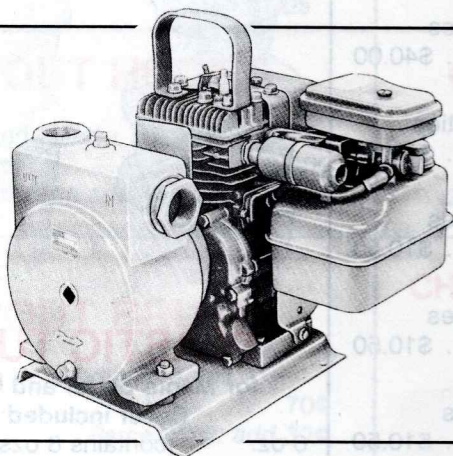

For squares of 24" x 24"

Adaptable on 20 gallon syrup containers measuring 20" in diameter x 23" in height ..... \$43.00 without felt.

These strainer should be used with a orlon square between the first and second ring and with a cotton between the second and third ring.

Cannot be used on milk cans.

## SAP WATER PUMP

These pumps are used for emptying the gathering tanks. They are specially suited for those who have no elevation near the sugar house.

This fuel-saving pump is powered by an easy starting gasoline engine. It can also be powered by an electric motor.

(with gas motor) \$255.00

Pump alone, without base nor motor ..... \$ 70.00

Foot valve alone ..... \$ 7.00

## TAPPING DRILLS
