MAPLE SUGARING

EQUIPMENT AND ACCESSORIES 1992

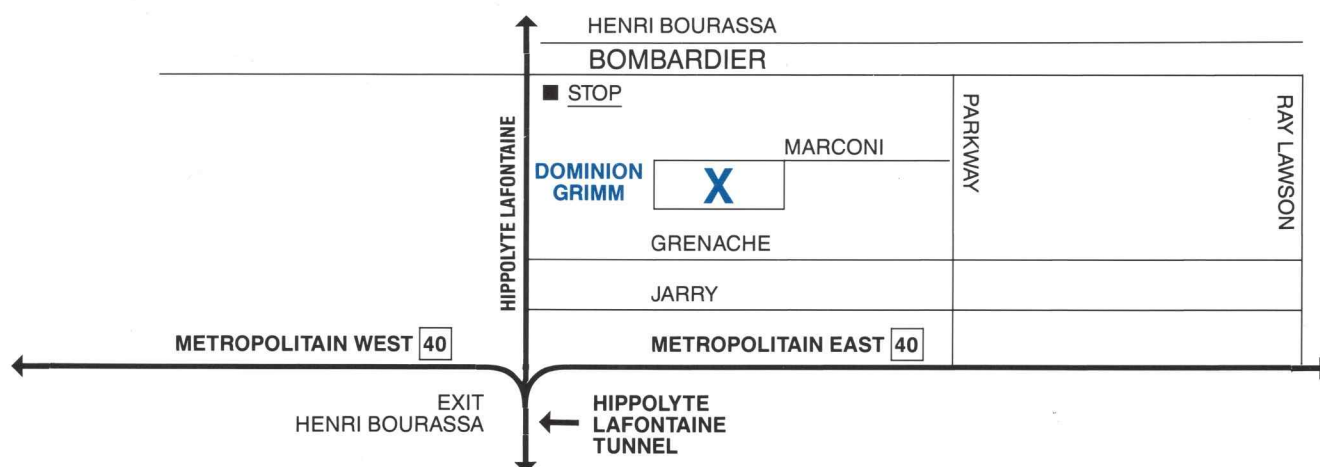

8250 MARCONI, VILLE D'ANJOU, MONTREAL, QUE. H1J 1X5 • TEL.: (514) 351-3000 • FAX: (514) 354-6136

For more than 100 sugaring seasons, Dominion & Grimm has looked after the well-being of maple syrup producers.

Whether it is for an evaporator, a reverse osmosis system or other accessories required for marketing their products, we are always ready to serve our customers.

We manufacture our equipment in our own building of 46,000 sq. ft. which houses our factory and offices. Our skilled employees assure our customers of an excellent after sales service. The D&G guarantee makes us proud and our customers know this: they can depend on Dominion & Grimm Inc. entirely.

Woodfired evaporator – Model 700

- System with 1, 2 or 3 flat bottom interchangeable syrup pans and one long flue pan with 7" flues. 7" Tig welded drop flues.
 - All pan corners are tig welded as well as the pan handles.
 - Heavy duty and watertight brass interconnections between pans.
 - 1/4" Dial thermometer fitting.
 - Manufactured in accordance with the producer's needs.
 - Always the same extra strong manufacturing, that made D & G equipment so famous.
 - Pans are made from top quality stainless steel 22 gauge type 304 or 430.
 - Suitable for any additions such as: Preheater hood, woodsaver, etc..., offered by D & G.
 - Drop flues or raised flue pans available on choice.
- Available: Sizes from 3' x 10' up to 6' x 16'.

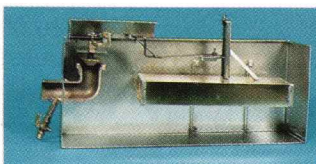

Woodfired evaporator "The Sportsman"

- The perfect equipment for an operation of 50 to 200 taps.
- Size: 18" x 63" complete. Including: 1 – 18" x 45" Flue pan (5" flues). 1 – 18" x 18" Syrup pan. Arch, smoke stack and grates.
- Pans are made from 22 gauge stainless steel.
- Arch and smoke stack made from galvanise steel.
- Float box is optional, but recommended.

D & G woodsaver

- Special blower system available for any size and any brand of woodfired evaporators.

Float box

- Improved, removable, installed at the back or the front of blue pan, on the evaporator.
- Brass tapered needle with O'ring that guarantees a tight shut off.

Preheater Hood

- Will increase the boiling efficiency of any evaporator from 15 to 20% by heating the sap between 180° to 190° before entering the float box.
- Copper preheater coil mounted with unions for easy cleaning.
- Hood made from aluminium or stainless steel.
- Sliding doors on each corners.
- Built-in trough around inside the hood, to recuperate all the condensation water.
- Special trough to recuperate condensation water from the steam stack as well.
- Will supply enough hot water for cleaning demand, at the sugar house.

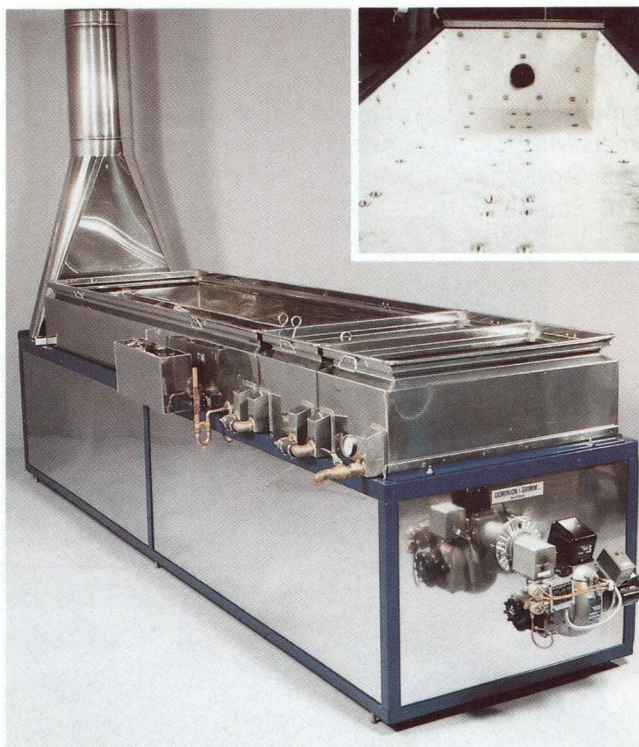

Woodfired evaporator – Model 500

- Recommended for someone that has between 250 to 1200 taps.
 - System with 1 or 2 flat bottom interchangeable syrup pans with 5" flues.
 - 5" Tig welded drop flues.
 - Drop flues or raised flue pans available on choice.
 - 7" flues on special order at low extra cost.
- Available: Sizes from 2' x 6' up to 2 1/2' x 12'.

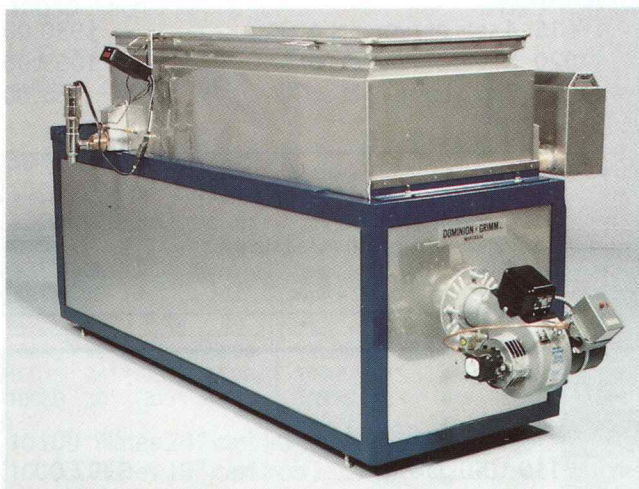

Reversible model

- Available in any sizes.
- Consult our other pamphlet or our local Distributor.

Oilfired Evaporator

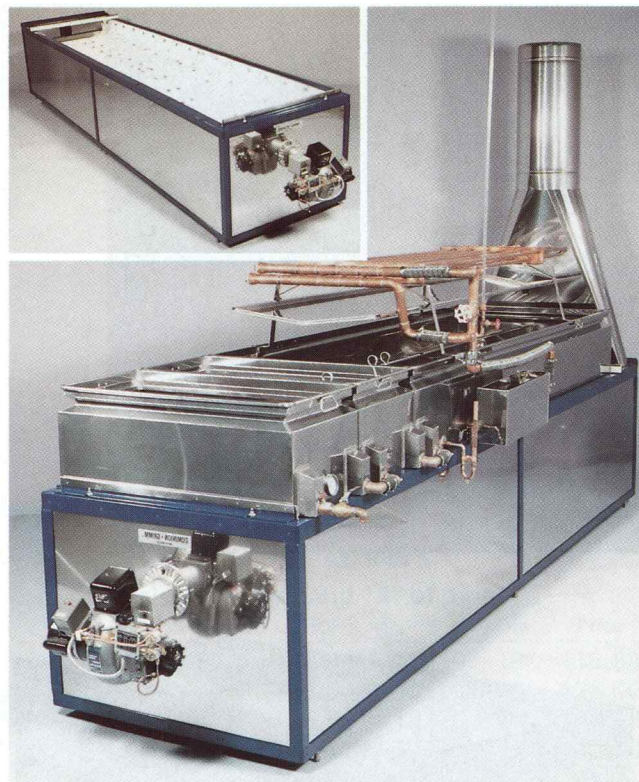

- Top quality manufacturing.
- Arch completely insulated with three (3) rows of ceramic blanket for high performance.
- Double wall sides construction for air circulation.
- Equipped with "CARLIN" high efficiency burners.
- AVAILABLE: Sizes from 2' x 6' up to 6' x 16'.

Oilfired Finishing Outfit

- Mainly used to facilitate the maple syrup finition process.
- Conceived to accelerate the draw-off frequency and to make maple syrup with steady density.
- Will increase the efficiency of evaporator.
- Automate operation set-up.
- Float box and accessories included.
- Continuous flow pan with multiple partitions for better control.
- Equipped with "CARLIN" high efficiency oil burner.

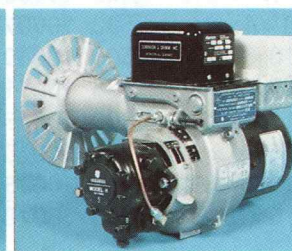

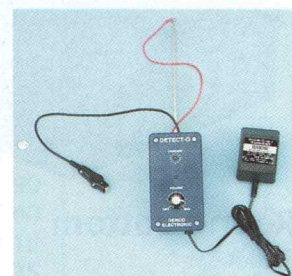

Prices subject to change

Detect-'O''

Two different models:

- One that will shut-off the oil burner if sap level gets too low.
- The other comes with a single buzzer alarm.

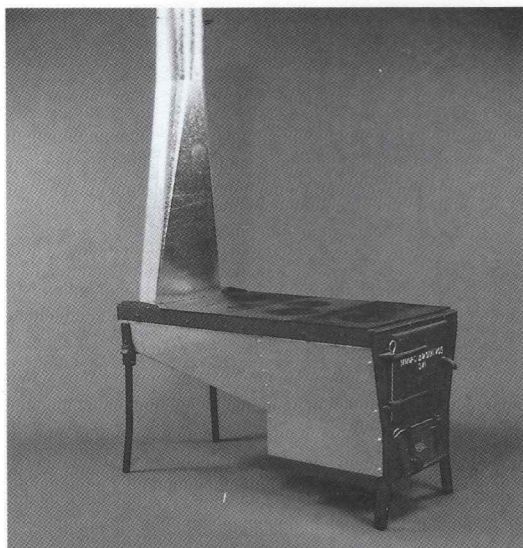

CAR801	CARLIN Burner. High & low fire No. 801	...	\$2,300.00
CAR701	CARLIN Burner. High & low fire No. 701	...	1,730.00
CAR601	CARLIN Burner. Single stage No. 601	...	1,325.00
CAR301	CARLIN Burner. Single stage No. 301	...	1,005.00
CAR102	CARLIN Burner. Single stage No. 102	...	570.00
CAR 99	CARLIN Burner. Single stage No. 99	...	565.00

Oil conversion kit for woodfired evaporator

- Contact our office for a quotation.
- Will fit any kind or brand name of evaporator.

* Technician service on request, to solve problems such as: over consumption of oil, adjustment of burners, burners maintenance or insulation of arches.

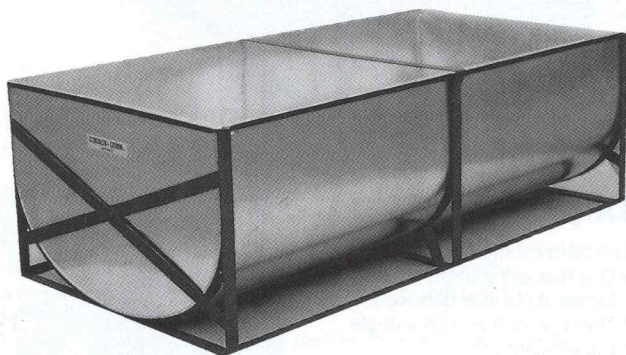

Model 92

(size of pan: 17 x 23")

The model 92 stove has only one pan. It also has a set of rimmers which can be placed behind, or in front of the pan.

10260 4½' x 8' x 22"	269.00		
10265 5' x 8' x 22"	293.00		
10270 6' x 8' x 26"	346.50		

When renewing a smoke stack, always specify the model of evaporator and the size of collar.

*Dominion & Grimm Reverse Osmosis Machine

Standard Equipment and characteristics:

- Valve panel for installation (4 valves, 3 way).
- 40 gallons SS 304 washing tank with heating element.
- High performance and conventional "FilmTec" membranes.
- High and low pressure automatic shut off.
- Pressure gauges.
- Programming device for concentration and cleaning period.
- Hour meter for concentration and cleaning time.

- Plastic feed pump.
 - Stainless steel recirculation pump.
 - Flowmeters.
 - Temperature gauge at feed inlet.
 - 5 Microns pre-filtration system with pressure gauges.
 - Concentration valve to adjust the recirculation rate.
 - Detergent and prefilters for one season.
 - Ask for our catalogue for more information.
- N.B. : All models are designed to be quickly and simply modified, if a greater flow rate is required.

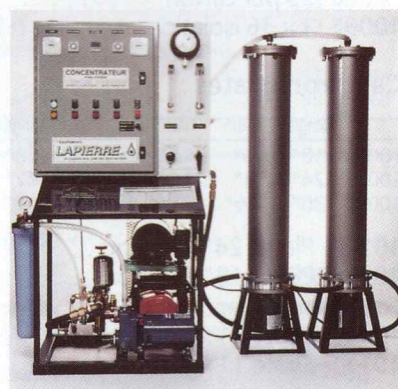

**Lapierre Reverse Osmosis Machine

Equipment and Characteristics:

- High pressure pump and recirculation pumps automatic start up.
- Allows a complete daily drainage, to recover the concentrate.
- Automatic cleaning system without supervision.
- Integrated recirculation system on each membrane.
- "FilmTec" membranes.
- Membranes storage casing.
- 22 different models and sizes depending on the options.

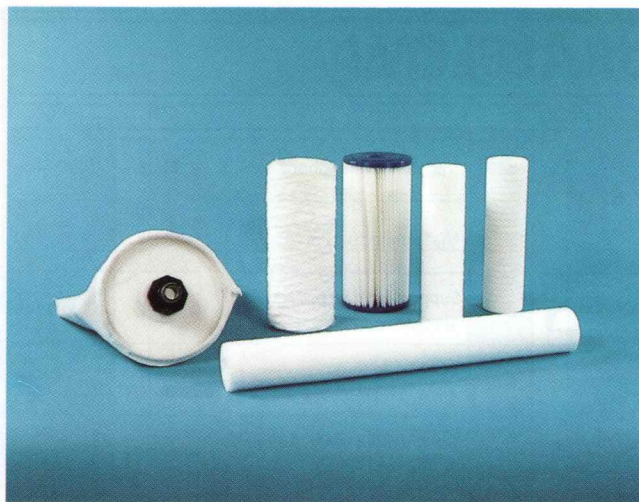

** Available at DOMINION & GRIMM INC.

* "FilmTec" membranes 

* Complete range of models, according to your needs.

* Technician service available on request, to modify R/O machine or to solve any problems.

4 GPM Pump - 1800 PSI - 7.5 HP\$4670.00
6 GPM Pump - 1100 PSI - 7.5 HP\$4670.00

Those prices do not include pressure washer, soap injector or electric starter.

LC100

1.5 H.P. electric motor 110V. General pump 2.1 G.P.M.,
1000 lb/sq. in. Adjustable soap injector.
Frame with two wheels. 30 feet of hose.\$1250.00

LC150

3 H.P. electric motor 220V. General pump 3.0 G.P.M.,
1500 lb. sq. in. Adjustable soap injector.
Frame with two wheels. 35 feet of hose.\$1650.00

LC150G

5.5 H.P. Honda gasoline engine, with "oil alert" protection.
General pump 3.1 G.P.M., 1500 lb/sq. in. Adjustable soap
injector. Frame with two wheels. 35 feet of hose.\$1735.00

"Flash" portable pressure washer

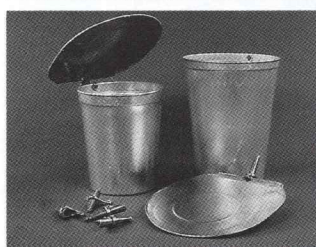

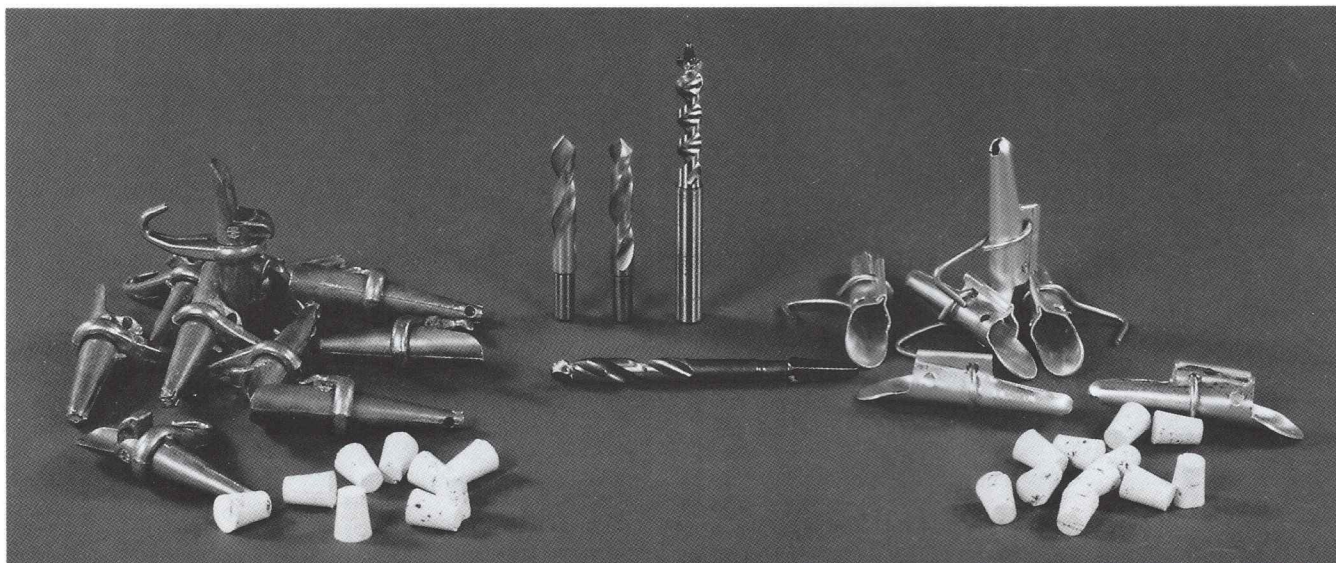

New line of portable pressure washers built by General Pump.

Model Flash 1.1 M, 1.1 H.P. electric motor 110V.
Adjustable jet. 2.1 G.P.M., 870 lb/sq. in. 26 feet of hose.\$675.00

Model Flash 1.5 M, 1.5 H.P. electric motor 110V.
Adjustable jet. 2.1 G.P.M., 1000 lb/sq. in.
26 feet of hose.\$805.00

Options

High pressure washer kit\$575.00
Soap Injector kit\$158.00
Electric starter for gasoline model\$315.00

Aluminum Pails

(used)

7090	2 gallons		\$165.00/c
7095	1½ gallon		\$150.00/c

Grimm galvanized covers

Rolled edges - (wire included)

Size: 11¼" x 11¼"

7100	Per 100		\$112.00
------	---------	-------	----------

Wire for bucket covers

7105	Per 100		\$12.75
(Parcel post add: \$2.35)			

Gathering Pails

(with "Easy-grip" wooden handle)

Made of polyethylene

Capacity:

7035	3 gallons		\$8.50
7040	4 gallons		\$11.25
(Parcel post add: \$2.35) each			

Maple tap pellets

(for greater profits uses).
One only pellet in each tap will increase and prolong the running of the sap.

Direction on each container.

6100	500 pellets per bottle		\$7.50
(Parcel post add: \$2.35)			

Spouts

Royal D.G.

Made of cast aluminum with rolling hook. The sap flows in from underneath.

7005	Per 100		\$83.50
(Parcel post: add: \$3.05 per cent)			

Joliette

The Joliette spout is made of aluminum sheet with short rolling hook. The sap inlet is at the very tip.

The Joliette spout has been imitated but never duplicated.

7010	Per 100		\$51.00
(Parcel post: add: \$2.80 per cent)			

Montréal

The tip being completely closed, the sap flows-in from underneath, therefore keeps the tap always fresh.

This spout is the most perfect spout made of sheet metal.

7015	Per 100		\$51.00
(Parcel post: add: \$2.80 per 100)			

Spout hooks

7020	Royal		\$26.50/c
7025	Montreal and Joliette		\$11.25/c
(Parcel post: add: \$2.35)			

Corks

7030	Per 100		\$4.95
(Parcel post: add: .80)			

Tapping drills

(Parcel post add: \$2.35)		

Spoon for powder defoamer

6110	With handle	3.00
------	-------------	------

Skimmers

(Stainless steel)

11060	Perforated	\$30.00
11061	Non perforated	30.00
(Parcel post add: \$2.35)		

Dippers — Stainless steel

11065	6" Round	31.50
11066	9" Round	31.50
11075	1 flat side	43.50
(Parcel post add: \$2.35)		

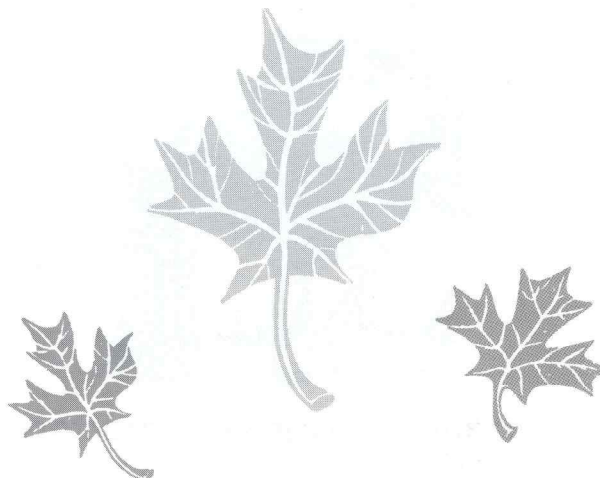

Copper floats

11080	Comet:	10 x 3 1/2 x 1 1/2	
11085	Grimm:	11 x 4 x 1 3/4	
11090	Dominion:	11 x 4 x 1 3/4	
11095	Dominion:	15 x 4 1/2 x 1 3/8	
	Each		44.50
(Parcel post add: \$2.35)			

Genugel

Gelatine to produce maple jelly.
Approximately 1 jar of 250 ml
per gramme.

6035	300 g	\$18.50
6040	170 g	10.75
(Parcel post: ajouter \$2.35)		

Vacuum booster

16060 With gauge
Used to transport vacuum on a long distance in your sugar bush. Also made to enhance vacuum performance in the system. \$210.00

Flexible clear P.V.C. hose

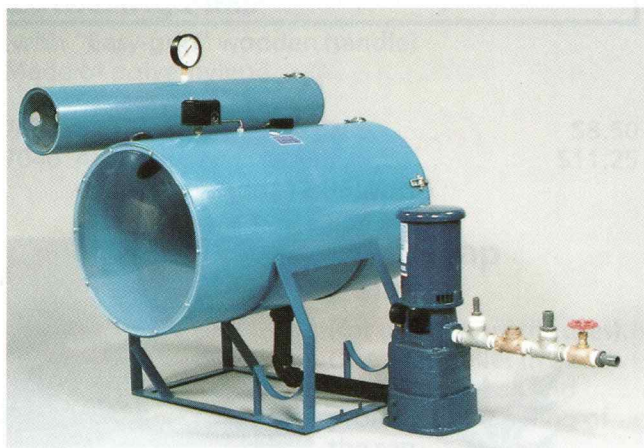

16065	1/2" x 11 1/16"	0.71 / ft
16070	3/4" x 1 1/8"	1.98 / ft
16075	1" x 1 3/8"	2.33 / ft
16080	1 1/4" x 1 5/8"	3.62 / ft
16085	1 1/2" x 1 7/8"	4.72 / ft

Heat resistant (220°F)

Manifold adaptor for bulk tank

The ideal instrument for connecting your mainlines to the bulk tank.
Vacuum gauge included \$200.00

Horizontal electric sap extractors

Tank only – Capacity 8000 taps Size : 20" x 24"	\$800.00
Tank only – Capacity 15,000 taps Size : 20" x 36"	850.00

– Steel frame with base for an electric pump.
– Pump not included.

Lapierre vertical manual extractor

16110 Capacity : 4000 taps. \$710.00

Sap electric extractor

Tank 36"

16115 With Jacuzzi Pump 1/2 H.P. 789.00

Sap electric extractor

Tank 36"

16120 With Jacuzzi Pump 3/4 H.P. 875.00

Sap electric extractor

Tank 43" with Jacuzzi Pump 1 H.P.

16125 IJY3 1400.00

16130 IJH 1155.00

Horizontal extractor price on request

Manual sap extractor

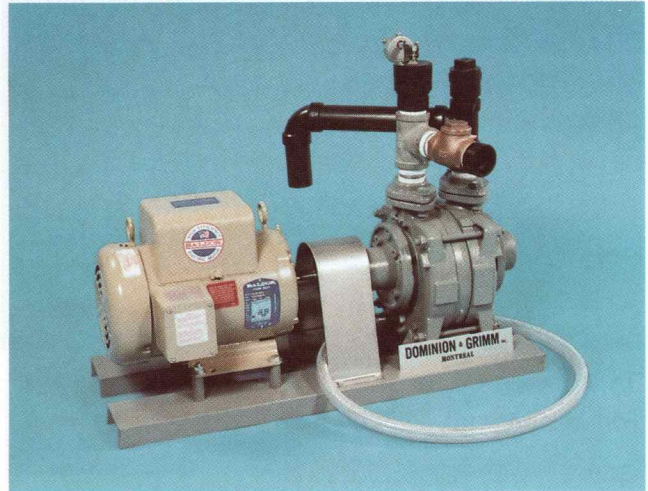

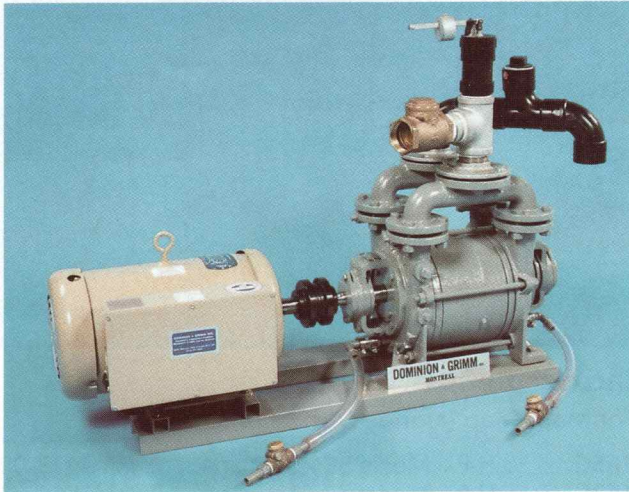

Horizontal single manual sap extractor. Capacity : 6,000 taps . . . \$1100.00

Horizontal double manual sap extractor Capacity: 12,000 taps . . . 1600.00

Characteristics of both models:

- Float system releasing.
- Frost will not affect it.
- To be installed above storage tank.
