MAPLE SUGARING EQUIPMENT AND ACCESSORIES 1995

8250 MARCONI, VILLE D'ANJOU, MONTRÉAL, QUÉ. H1J 1X5 • TÉL.: (514) 351-3000 • FAX: (514) 354-6136

Once again this year, we are proud to come back with new leading products.

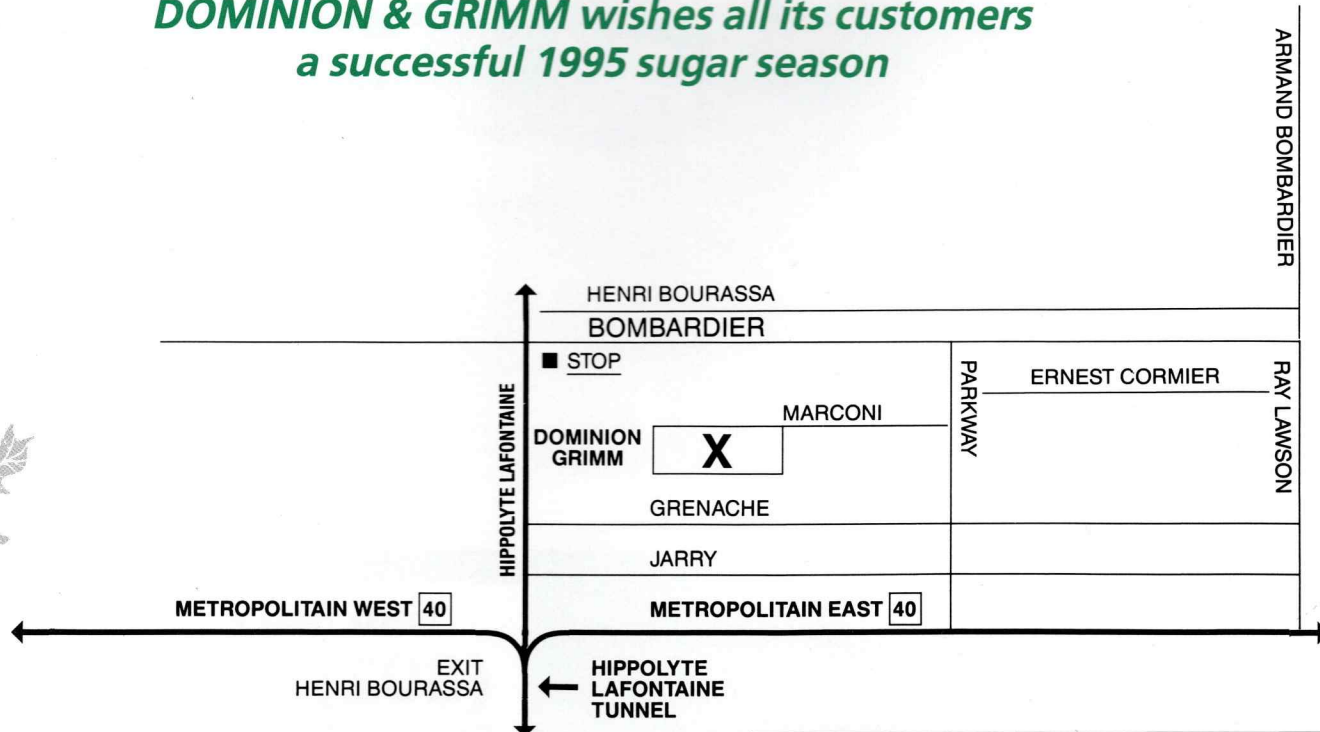

These products will contribute to improve the efficiency of your equipment, the presentation of your products and especially **will protect the environment**.

Also, we are increasing the variety of packaging products: new glass bottles, new containers for maple cream, and accessories for syrup drums.

You shall not forget also, that our staff in Montreal office and our distributors network are always there to answer your questions, and to help you in solving any problems that you might experience.

Our customers, from the oldest to the new ones, recognize our reputation for our matchless after sale service and the **DOMINION & GRIMM** warranty of satisfaction.

***DOMINION & GRIMM wishes all its customers
a successful 1995 sugar season***

NEW

Woodfired evaporator "The Sportsman"

- The perfect equipment for an operation of 50 to 200 taps.
- Size: 18" x 63" complete.
Including: 1 – 18" x 45" Flue pan (5" flues).
1 – 18" x 18" Syrup pan. Arch, smoke stack and grates.
- Float box is optional, but recommended.
- Entirely tig welded.
- Now available in all sizes.

Woodfired evaporator – Model 500

- Recommended for someone that has between 250 to 1200 taps.
 - System with 1 or 2 flat bottom interchangeable syrup pans with 5" flues.
 - 5" Tig welded drop flues.
 - Drop flues or raised flue pans available on choice.
 - 7" flues on special order at low extra cost.
- Available: Sizes from 2' x 8' up to 2½' x 12'.

Reversible model

- Available in any sizes.
- Consult our local Distributor.

Woodfired evaporator – Model 700

- System with 1, 2 or 3 flat bottom interchangeable syrup pans and one long flue pan with 7" flues.
- 7" tig welded drop flues.
- Heavy duty and watertight brass interconnections between pans.
- ¼" Dial thermometer fitting.
- Manufactured in accordance with the producer's needs.
- Always the same extra strong manufacturing, that made D & G equipment so famous.
- Pans are made from top quality stainless steel 22 gauge type 304.
- Drop flues or raised flue pans available on choice.
- Available: Sizes from 3' x 10' up to 6' x 16'.
- New manufacturing process.
- **Completely tig-welded, including pans.**
- **Conventional solder completely eliminated.**

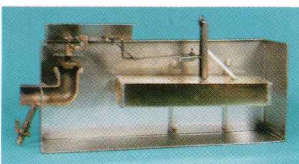

Preheater Hood

- Will increase the boiling efficiency of any evaporator from 15 to 20% by heating the sap between 180° to 190° before entering the float box.
- Copper preheater coil mounted with unions for easy cleaning.
- Hood made from aluminium or stainless steel.
- Sliding doors on each corners.
- Built-in trough around inside the hood, to recuperate all the condensation water.
- Special trough to recuperate condensation water from the steam stack as well.
- Will supply enough hot water for cleaning demand at the sugar house.

D & G woodsaver

Special blower system available for any size and any brand of woodfired evaporators.

Float box

- Improved, removable, installed at the back or the front of flue pans, on the evaporator.
- Brass tapered needle with O'ring that guarantees a tight shut off.

Prices subject to change

"Champion" model

completely made from 304 – bright annealed stainless steel – 20 gauges

- Now completely free of solder and lead manufactured with tig-welding process
- Arch completely covered up with stainless steel tig welded
- Cover-up box over the burner(s) to reduce the noise
- Available in all models & sizes
- High efficiency arch
- Superior thermic insulation
- Flue pans available inside fire or pan

Detect-"O"

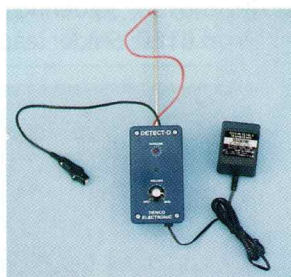

Two different models:

- One that will shut-off the oil burner if sap level gets too low.
- The other comes with a single buzzer alarm.

PROD 1005 156.00

Buzzer alarm

PROD 1000 143.20

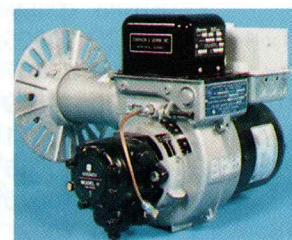

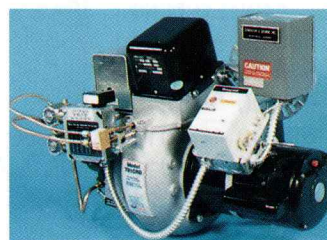

Oil-fired Finishing Outfit

- Mainly used to facilitate the maple syrup finition process.
- Conceived to accelerate the draw-off frequency and to make maple syrup with steady density.
- Will increase the efficiency of evaporator.
- Automate operation set-up.
- Float box and accessories included.

- Continuous flow pan with multiple partitions for better control.
- Equipped with "CARLIN" high efficiency oil burner.

*Dominion & Grimm Reverse Osmosis Machine

Standard Equipment and characteristics :

- Valve panel for installation (4 valves, 3 way).
- 40 gallons SS 304 washing tank with heating element.
- High performance and conventional "FilmTec" membranes.
- High and low pressure automatic shut off.
- Pressure gauges.
- Programming device for concentration and cleaning period.
- Hour meter for concentration and cleaning time.

* "FilmTec" membranes

* Complete range of models, according to your needs.

* Technician service available on request, to modify R/O machine or to solve any problems.

- Plastic feed pump.
 - Stainless steel recirculation pump.
 - Flowmeters.
 - Temperature gauge at feed inlet.
 - 5 Microns pre-filtration system with pressure gauges.
 - Concentration valve to adjust the recirculation rate.
 - Detergent and prefilters for one season.
 - Ask for our catalogue for more information.
- N.B. : All models are designed to be quickly and simply modified, if a greater flow rate is required.

Compact Dominion & Grimm R/O machine

Standard Equipment and characteristics :

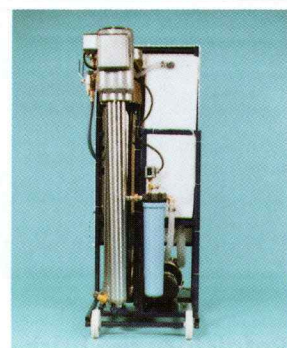

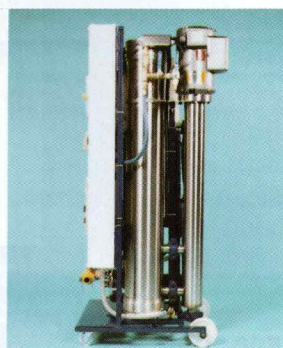

- 1 membrane 500GPH - 8" x 40" TFC (600)
- 1 HP or 3 HP feed pump for 1000 gallons model
- 5 HP or 7.5 HP multi stage stainless steel pump with patented integrated Turbo
- 8" stainless steel vessel
- CSA approved electrical panel
- Thermometer
- Flowmeters and concentrate valve
- High temperature automatic shut-off
- Automatic shut-off when sap feed is blocked or tank empty
- Automatic shut-off when the filter is dirty
- Ultra quick rinsing
- Quiet operation
- 25 gallons washing tank with water heater and water level protection
- Three-way valves and quick couplets (Ny-glass)
- Cleaning timer
- Wheel kit
- THIS MODEL IS EXPANSIBLE ON REQUEST

16000	8" diameter x 30" long	8.80
16205	Prefilter cloth 4 1/2 x 10	2.35

"FilmTec" Membranes

- 4" x 40" - T.F.C. High performance
- 8" x 40" - T.F.C. High performance
- 4" x 40" - T.F.C. Conventional
- 8" x 40" - T.F.C. Conventional

PRICES ON REQUEST

Sap filter

- High flow filter unit.
- Can be used as a 5 microns prefilter for R/O machine.
- This 5 microns washable filter, can replace the conventional disposable cartridge found on most R/O machines.
- Pressure gauge included.
- Filters are quickly changed.

9LAP Each \$380.00

"FilmTec" membranes are compatible with any brand of Reverse Osmosis machine on the market.

"FilmTec" membranes are the ones most commonly used by the manufacturers of Reverse Osmosis machine for maple sap.

Accessories

OS100	Alkaline clear for T.F.C. membranes 2 kg	17.40
OS105	Acid cleaner - 2.2 kg	25.60
OS110	Anti-bacteria for T.F.C. membranes 1 kg	5.55
OS115	Glycerine 4 litres (for summer storage)	24.00
OS120	Non detergent oil Magikist - 1 litre	5.00
OS125	Liquid detergent - 4 litres	25.60
OS130	Glycerine 20 litres	79.20

D.E. Type Sap filters

(Ideal for producers who operate reverse osmosis concentration).

Pumping Station

Vacuum pump

Econovac

Hydrovac

Vacuum pump

- Of superior quality. Oil cooled vacuum pump. These pumps include a wide range of accessories making them safe and effective.
- Humidity 2" trap door.
- Automatic shut-off control.
- Temperature control.
- Vacuum control.
- Manometer.
- Muffler.
- Oiler.

PRICES ON REQUEST

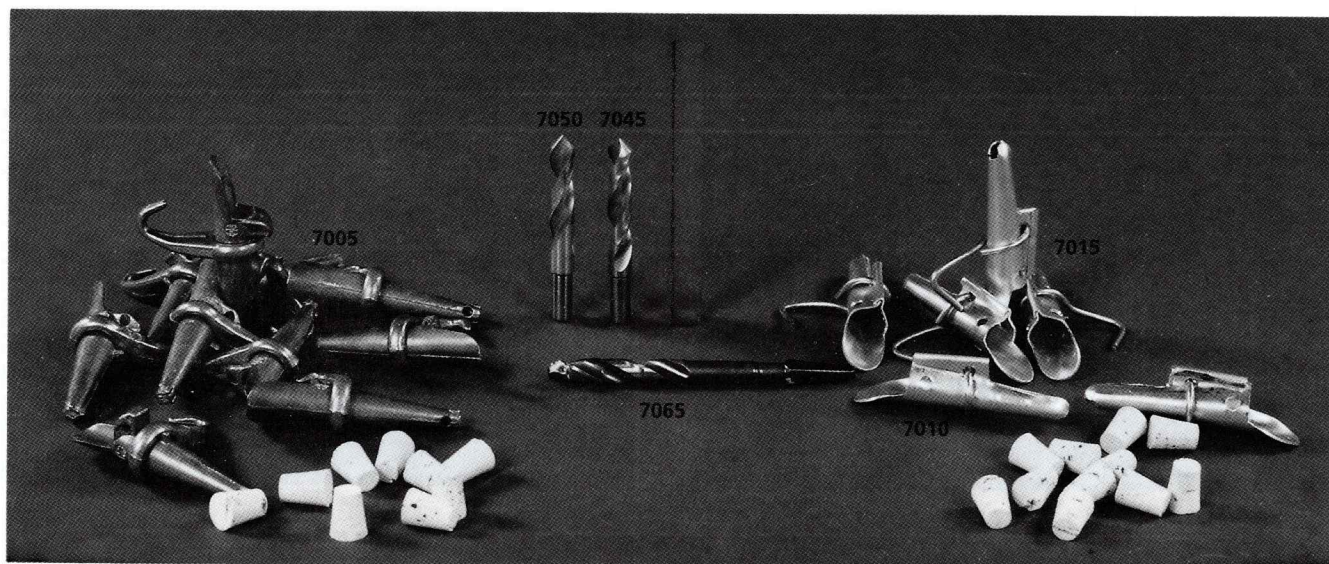

Entirely independent unit allowing you to obtain the same efficiency as electricity, with a gas motor. This motor winds up the vacuum pump creating the necessary vacuum, for your sugar bush, while the level control of your extractor activates the magnetic clutch, which starts the water pump.

The "Hydrovac" unit includes the gas motor with an electric starter and a small light for your lighting needs. The "Hydrovac" is installed at the pumping station and can push the sap directly to the sugar house, up to 5000 feet at 100 feet of elevation.

Model	Gas Motor	Capacity

Made of heavy duty plastic. Rubber harness included.

13130 – Senior	\$54.80
13135 – Junior	47.60

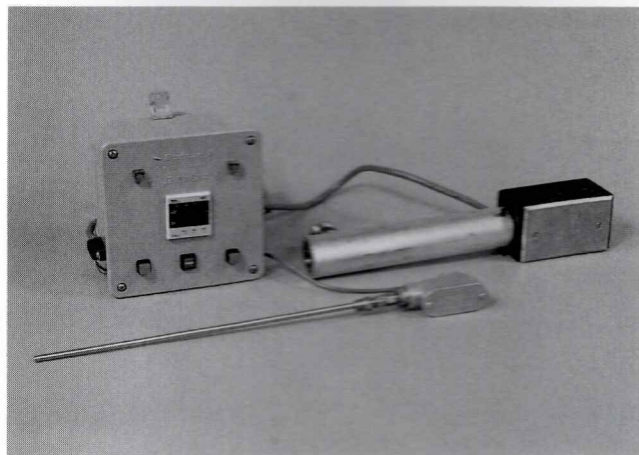

Faber Snow Shoes (in neoprene)

Heavy duty

The decking of neoprene is reinforced by eyelets and tightened inside the snowshoe frame by a galvanized steel cable covered with nylon. This decking is less slippery than polyethylene so it has better traction when climbing or descending slopes. We recommend this decking for working purpose or intensive use.
